Ground principles of Deep Democracy

Conscious

Unconscious

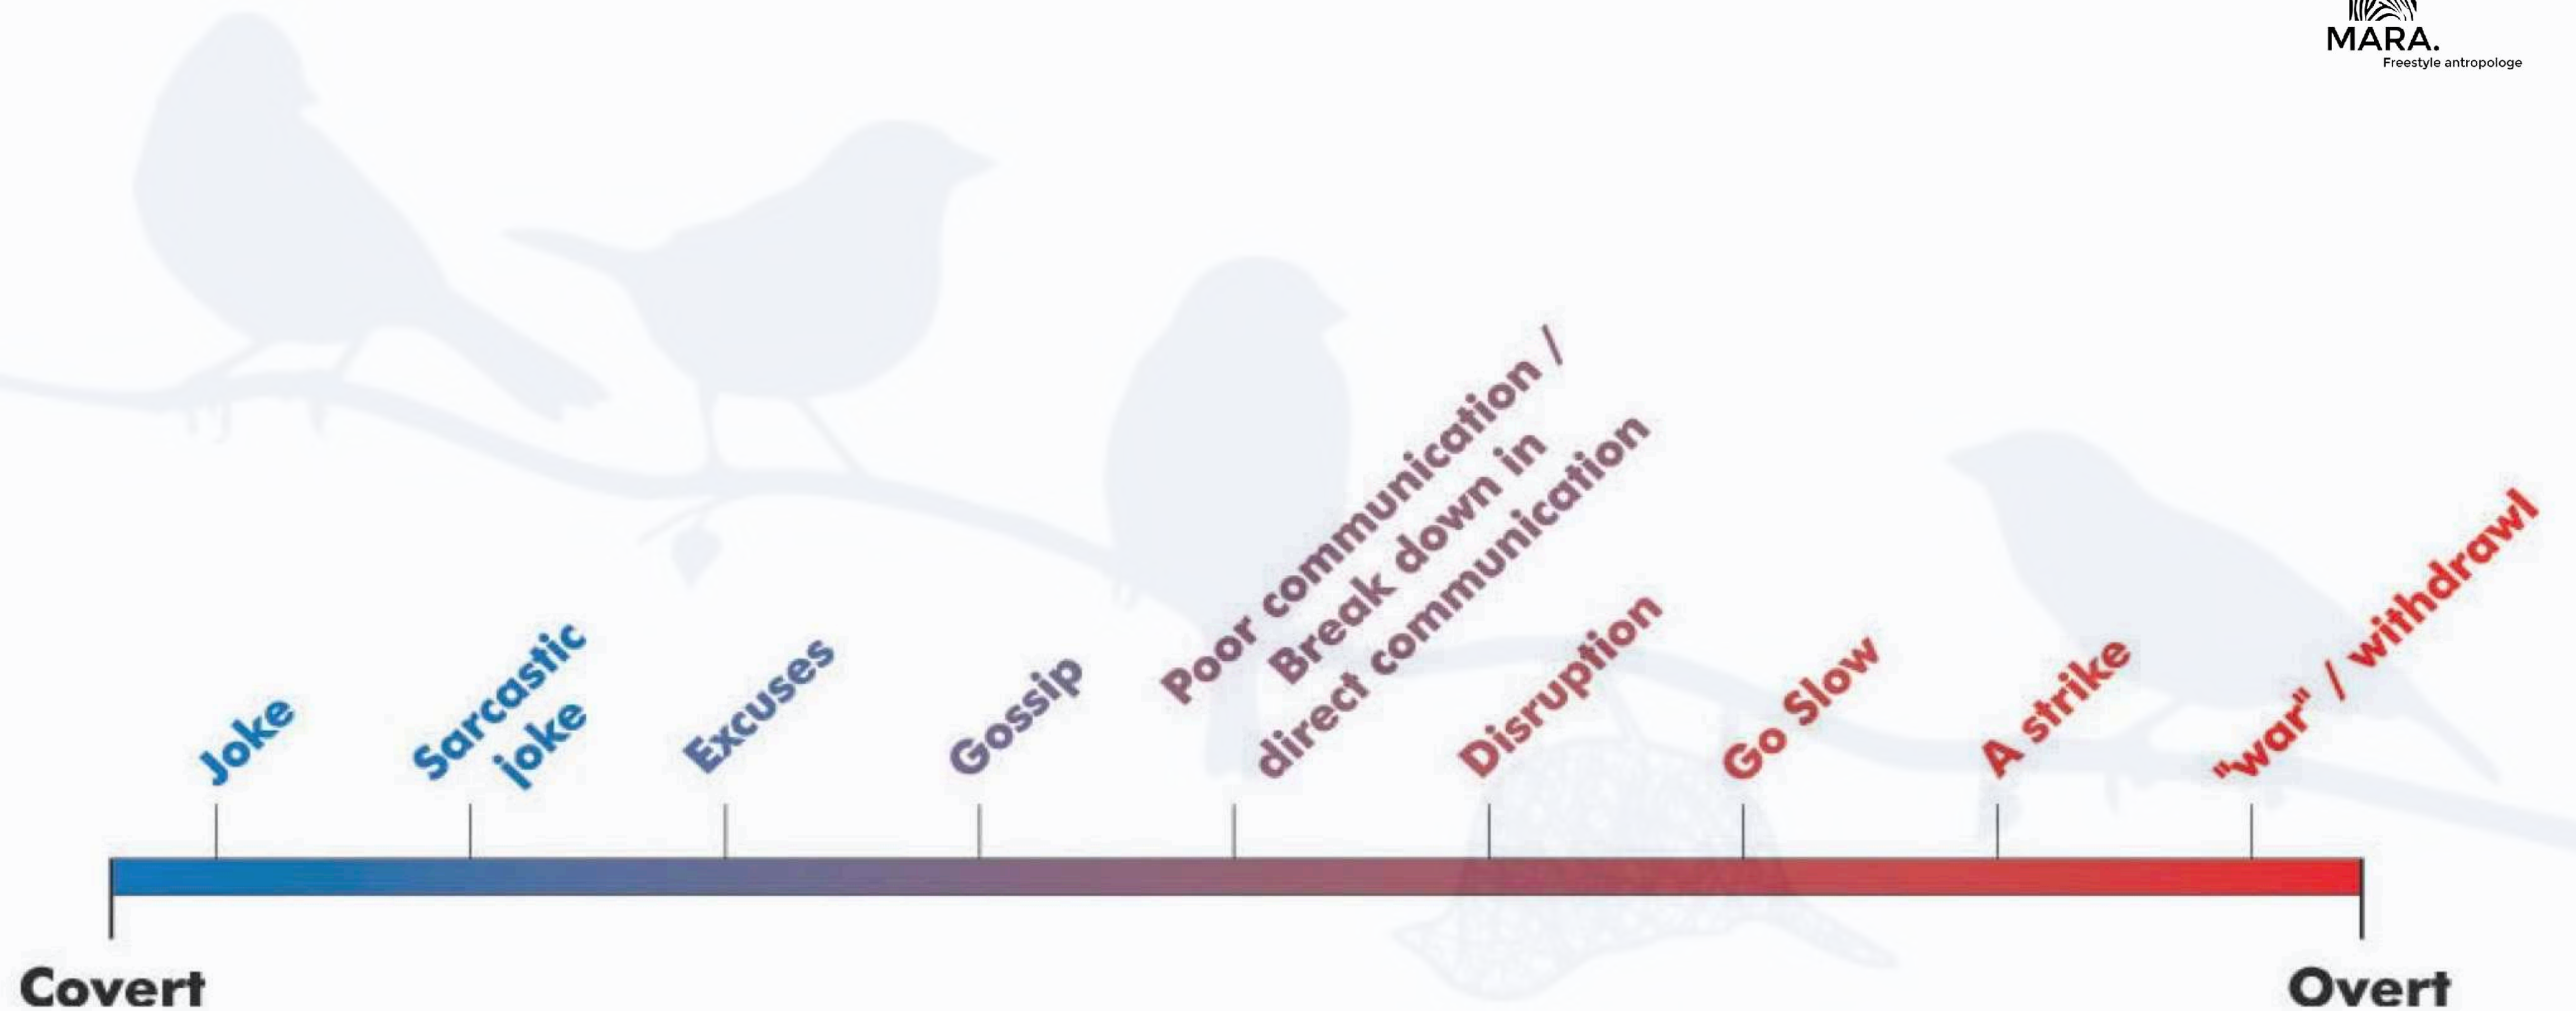

Wisdom

- **Group conscious:**
Everybody is aware of all information
- **Group unconscious**
not everyone is aware of all information
- **Wisdom/potential:**
Combined knowledge of the group &
being able to say what needs to be said

Iceberg

Autocratic decisions

Resistance behaviour: when minority is not heard

- 
- **What's your favourite resistance behaviour?**
 - **What do you not like from others?**
 - **What does resistance look like in your organisation/classroom?**

Reflection

Diving into the undercurrent? Why would you?

(Deep) democratic

- 1. Gather all the views**
- 2. Look actively for the 'no/alternative view'**

Deep Democracy: 4 steps of decision making

Steps of decision making

1. **Gain all the views:**
‘Who has an idea?’
2. **Actively look for the no/alternative view (make it safe to share):**
‘Who has a different view/idea?’ ‘Who feels differently?’
3. **Spread the no/alternative view:**
‘Who recognises that?’/ ‘who thinks/feels something similar?’

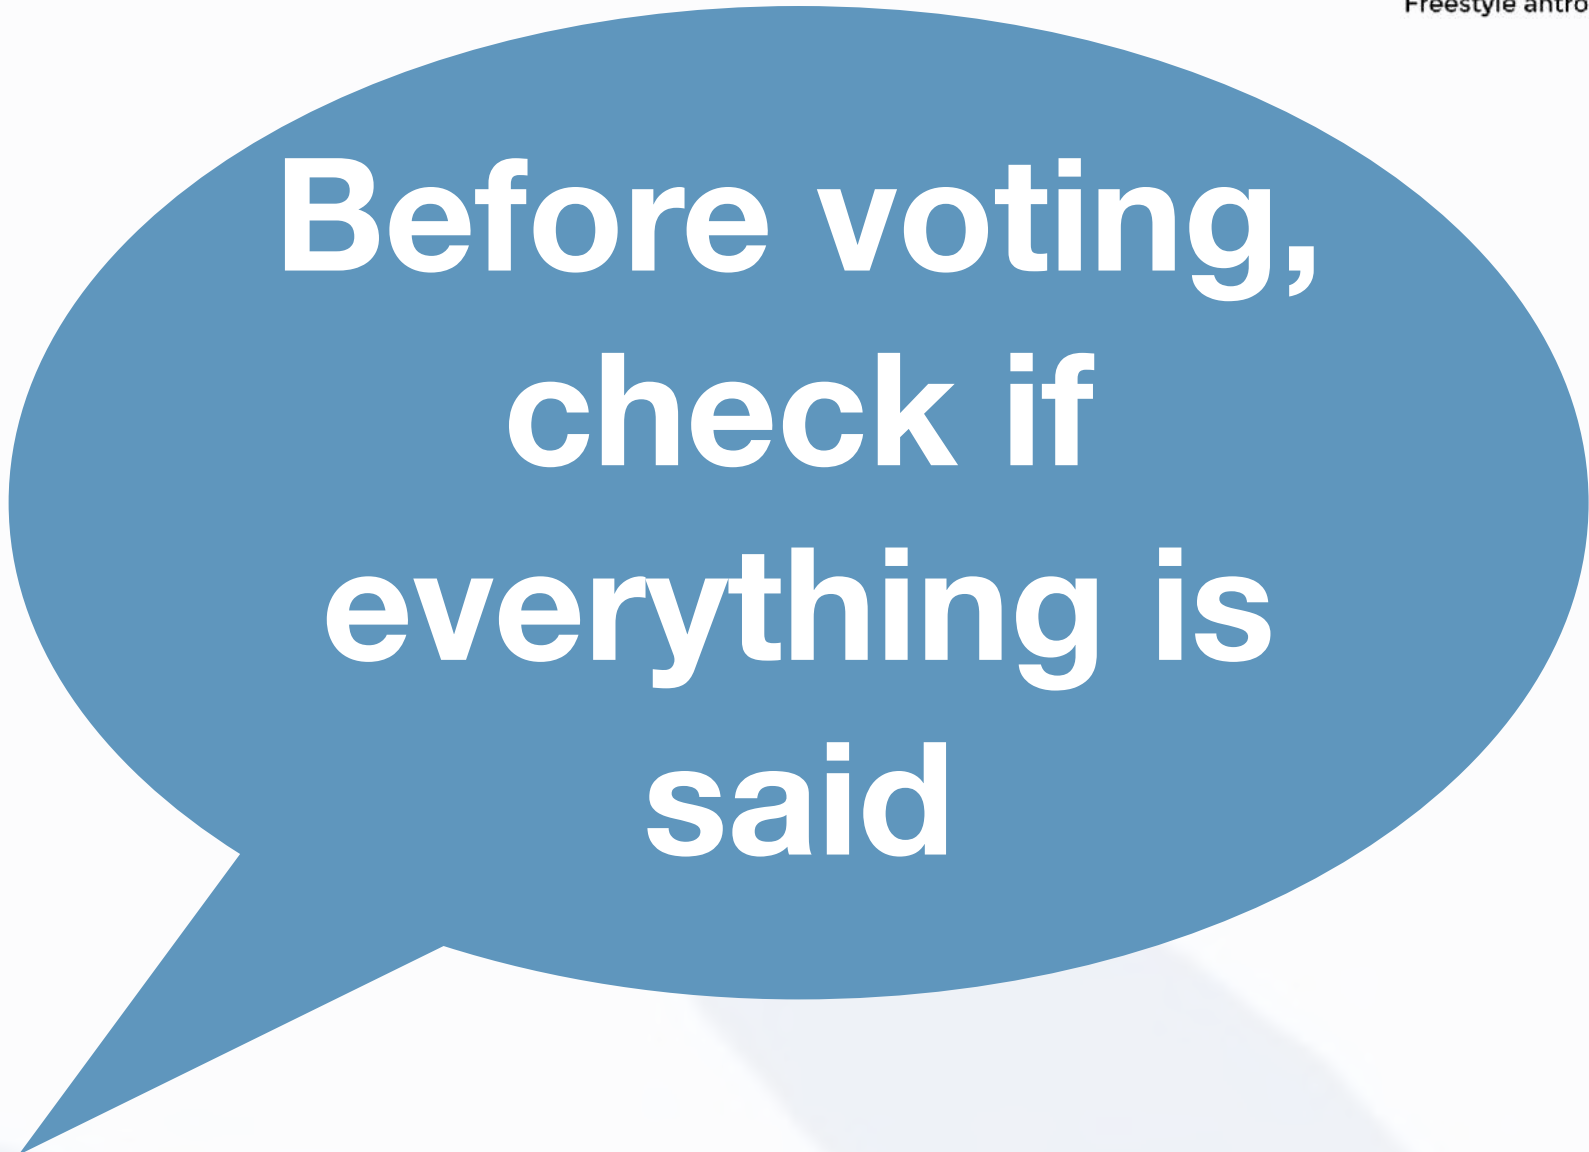

The good conversation

Deep Democracy: Gaining all the views

Vote

- **Raise hands**
- **Maximum one vote per person**
- **It's okay to vote blank**

**Before voting,
check if
everything is
said**

Deep Democracy: Voting

Steps of decision making

The best

‘What do you need to come along?’

Deep Democracy: the best decision possible

Steps of decision making

‘Having the conflict’

5. Dive into the unconscious

Deep Democracy: dive under the waterline

- 
- 1. Who has an idea?**
 - 2. Who has a different view/idea/feeling?**
 - 3. Who recognises this/ thinks or feels something similar?**
 - Vote -**
 - 4. What do you need to go along?**
 - Vote-**

Deep Democracy: Steps of decision making

- **Autocratic decision:** 'I decide'
